I Information about the Funding Measure

1 Objective

The New School for Social Research (NSSR) is a graduate institution that offers a unique opportunity for innovative German-American research cooperation. Theodor Heuss professors, who are appointed each year for a 10-month visiting professorship at NSSR, make an important contribution to this partnership. They are eligible to apply for seed funding from the DFG to initiate international collaboration between researchers in Germany and the United States and are encouraged to include early career researchers in their proposals.
