Justification of the performance class and choice of instrumentation

1. General requirements (price/performance class)
2. Required specifications for the described projects in detail
3. Considered instrumentation, manufacturers and/or providers listed in tabular form

<table>
<thead>
<tr>
<th>Instrumentation types</th>
<th>Significant components</th>
<th>Individual prices</th>
<th>gross</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

4. Criteria for the selection
   a) Specifications
   b) Price/performance ratio
   c) Compatibility with existing equipment
   d) Follow-up costs
   e) Special connection to the manufacturer/provider

5. Justification for selecting the favoured instrumentation or configuration
6. Statement on the alternatives
7. Configuration diagram
