

**Justification of the performance class and choice of instrumentation**

1. General requirements (price/performance class)
2. Required specifications for the described projects in detail
3. Considered instrumentation, manufacturers and/or providers listed in tabular form

Instrumentation types	Significant components	Individual prices	gross

4. Criteria for the selection
  - a) Specifications
  - b) Price/performance ratio
  - c) Compatibility with existing equipment
  - d) Follow-up costs
  - e) Special connection to the manufacturer/provider
5. Justification for selecting the favoured instrumentation or configuration
6. Statement on the alternatives
7. Configuration diagram
