

“BEETHOVEN 2” – Polish-German Funding Initiative

Call for proposals 2016

INFORMATION FOR APPLICANTS

A complete Beethoven 2 proposal consists of the joint project description (please use the template provided), the CVs of the Principal Investigators and the Co-Investigators as well as supplementary documents as needed. The proposal must be written in English. There is a strict limit of 21 pages for the joint project description (font size: 11 or 12, line spacing: 1.15). Applicants are obliged to ensure that the proposal contains sufficient information for evaluation.

Criteria	GERMAN APPLICANTS	POLISH APPLICANTS
I CORE DATA		
Subject Classification	<p>German applicants are asked to refer to DFG’s subject structure (DFG-Fachsystematik: http://www.dfg.de/en/dfg_profile/statutory_bodies/review_boards/subject_areas/).</p> <p>Proposals are accepted in the subjects 101-113, 301-312, 406 (please refer to DFG’s subject classification). Applicants who wish to pursue a project which has a clear focus in the Social Sciences, Humanities, Chemistry, Mathematics, Physics or Materials Science but falls in a different section of DFG’s subject classification are advised to contact DFG well before the deadline. Please note that proposals will not be accepted in subjects that are covered by an open BMBF (Federal Ministry of Education and Research) call.</p>	<p>Polish applicants must refer to NCN’s subject areas described in <i>Uchwała Rady NCN nr 62/2016 z dnia 7 lipca 2016 r.</i> Proposals are accepted in the subjects covered by the panels HS1, HS2, HS3, HS4, HS5, HS6 and ST1.1-1.14, ST1.16-1.17, ST2.1-2.9, ST2.11-2.12, ST2.14-2.18, ST 3.1-3.18, ST 4.1-4.17, ST 5.1-5.24 and ST 9.1.-9.18 (please refer to NCN’s panel list).</p>
Duration	Applicants may seek funding for projects with a duration of 24 or 36 months . It is expected that the projects will start in January 2018.	

II DESCRIPTION OF THE RESEARCH PROJECT

<p>Joint research team</p>	<p>Please indicate the two Principal Investigators (one Polish PI and one German PI) and the Co-Investigators. There is no optimum number of researchers taking part in the project. All partners listed in this section should have a significant role in the research and their presence as members of the research team should be justified. For all Principal Investigators and Co-Investigators, CVs should be attached.</p> <p>a) A Principal Investigator is a researcher responsible for carrying out research and managing the research team. S/he is also in charge of leading the project activities at her/his host institution. There are two PIs involved in each project, one from the German and one from the Polish side.</p> <p>b) A Co-Investigator is a researcher holding a PhD degree (or equivalent) who is involved in the project but does not play the role of Principal Investigator. Unlike Cooperation Partners, Co-Investigators apply for funds from DFG or NCN.</p> <p>PhD candidates to be employed within a Beethoven 2 project should not be entered as Co-Investigators. Please note, however, that the number of PhD positions for which funds are requested should be indicated in the budget table (see section IV of this document).</p>
	<ol style="list-style-type: none"> 1. The Principal Investigator (PI): <ol style="list-style-type: none"> a. must have at least a PhD degree when submitting a proposal; b. must be employed in a Polish Host Institution when submitting the proposal; c. may not submit proposals under calls for proposals with the same deadline as “Beethoven 2”; d. may take that role in only one proposal submitted within this call for proposal. 2. Eligible Host Institutions: <ol style="list-style-type: none"> a. academic or research organisations, b. research consortia, c. scientific networks and university organisational institutions which are not basic organisational institutions, d. Polish Academy of Sciences research centres, e. university research centres, f. scientific libraries, g. entrepreneurs with the status of research and development centre, h. organisational institutions having legal personality which have been established on Polish territory.

		<p>3. Under this call for proposals the NCN will not offer grants that would be considered state aid.</p> <p>4. A Host Institution which does not receive a subsidy from the budget for science should attach to the proposal information concerning:</p> <ol style="list-style-type: none"> a. research carried out within 2 years prior to the submission of the proposal together with a list of the publications by researchers employed in this institution; b. research infrastructure which ensures successful research performance.
Cooperation Partners	Please list all academic collaborators who are not funded through the project. Such collaboration partners can (but need not) be based outside Germany or Poland. You do not need to attach CVs for cooperation partners.	
State of the art and preliminary work	<p>Please explain briefly and precisely the state of the art in your field and its direct relationship to your project. This description should make clear in which context you situate your own research and in what areas you intend to make a unique, innovative and promising contribution. To illustrate and enhance your presentation, you may refer to others' and your own publications. Please list all cited publications in the main reference list under section II.8. of the joint project description template. This reference list is not considered your list of publications. German applicants who list an unpublished manuscript must include a copy in their proposal. Polish applicants may not list or submit unpublished manuscripts.</p> <p>Note that reviewers may, but are not required to, read any of the works you cite or include. The description of the state of the art must be understandable without consulting additional literature.</p>	
Objectives	<p>Please give a concise description of your project's scientific objectives with particular attention to the innovative nature of the research project and its importance for the development of science.</p> <p>Please indicate if you anticipate results that may be relevant outside academia (such as science policy, technology, the economy or society).</p>	
Work programme including proposed research methods and added value of	<p>The quality of the work programme is critical to the success of a funding proposal.</p> <p>The work programme must include:</p> <ul style="list-style-type: none"> • a detailed account of the steps planned during the proposed funding period (for experimental projects, a schedule detailing all planned experiments should be provided); • a detailed description of the methods that you plan to use in the project: what methods are already available? What methods need to be developed? What assistance is needed from outside your own group/institute?; • information on each participant's contribution to the project work; • a description of the added value of the proposed international cooperation; note that a high level of integration will be a necessary condition for funding within the present joint funding initiative. 	

international cooperation	Please note that the work programme should correspond with the financial sections IV.1 and IV.2. of the joint project description template.	
References	Please list all publications cited in sections II.5, II.6 and II.7 of the joint project description template.	
III FURTHER INFORMATION		
Host Institution	Please describe the Host Institution's commitment to the project, i.e. whether it provides access to facilities, scientific equipment and other resources necessary to implement the proposed research.	
		Polish applicants should note that the administrative personnel costs have to be covered from overheads. For detailed information please refer to: <i>Koszty w projektach badawczych finansowanych przez NCN w konkursie „BEETHOVEN 2”</i> , attached to <i>Uchwała nr 62/2016 z dnia 7 lipca 2016 r. Rady NCN w sprawie warunków oraz regulaminu przyznawania środków na realizację zadań finansowanych przez NCN w konkursie „Beethoven 2” na polsko-niemieckie projekty badawcze.</i>
Ethical issues	If there are any ethical issues raised in the research proposal, please describe how they are addressed	
	If applicable, German applicants must include an ethics committee vote from the institution within which their research will be carried out. For more information about the conditions under which an ethics committee vote is necessary, please consult the FAQs under <i>Informationen für Geistes- und Sozialwissenschaftler/innen</i> : http://www.dfg.de/foerderung/faq/geistes_sozialwissenschaftler/	Polish applicants should also consider NCN regulations on research integrity set up by <i>Uchwała Rady NCN nr 29/2016 z dnia 11 maja 2016 w sprawie przyjęcia zasad rzetelności badań naukowych</i> , and section G in <i>Zakres danych wymaganych we wniosku o finansowanie projektu badawczego w konkursie „Beethoven 2” na polsko-niemieckie projekty badawcze</i> attached to <i>Uchwała nr 62/2016 z dnia 7 lipca 2016 r. w sprawie warunków oraz regulaminu przyznawania środków na realizację zadań finansowanych przez NCN w konkursie „Beethoven 2” na polsko-niemieckie projekty badawcze.</i>

<p>First time proposal data (DFG applicants only)</p>	<p>If a PI or a Co-I is an early career researcher, a German researcher returning from abroad or returning to research after working in industry or taking a career break for family reasons applying for DFG funds for the first time (<u>"Erstantragstellende/r"</u>), please indicate briefly that applicant's individual contribution to the research project. You need not repeat the complete details from section II. It notifies the reviewers evaluating the proposal to take particular account of the applicant's personal potential and the quality of the proposed project and to attribute less weight to project-specific preliminary work or publications.</p>	
<p>Ongoing or past cooperation with other researchers</p>	<p>Please list researchers with whom you have collaborated scientifically within the past 3 years and those with whom you have agreed to cooperate on this proposal. This information will assist the DFG and NCN scientific officers in avoiding potential conflicts of interest during the review process.</p>
