

# Curriculum Vitae

---

## Professor Dr. Kazuyuki Tatsumi

born 26 January 1949

### Scientific Career

|            |   |
|------------|---|
| since 2003 | Director, Research Center for Materials Science, Nagoya University                    |
| 2005       | Visiting Professor, Universität Heidelberg (Germany)                                  |
| 2001       | Guest Professor, Suzhou University (China)  |
| 1987       | Visiting Professor, ETH, Lausanne (Switzerland)                                       |
| 1985       | Visiting Professor, University of Helsinki (Finland)                                  |
| 1994       | Professor, Department of Chemistry, Faculty of Science, Nagoya University             |
| 1991       | Associate Professor, Faculty of Engineering Science, Osaka University                 |
| 1982       | Assistant Professor, Faculty of Science, Osaka University                             |
| 1979       | Postdoctoral Fellow at Cornell University (USA, with Prof. Roald Hoffmann)            |
| 1977       | Postdoctoral Fellow at Texas A&M University (USA, with the late Prof. Minoru Tsutsui) |
| 1976       | Ph.D. Osaka University (T. Fueno)   |
| 1971       | B.Sc. Osaka University (Hon)  |

### Scientific Activity and Professional Recognition

|            |   |
|------------|---|
| since 2010 | Vice President (President-elect), IUPAC   |
| since 2008 | Council Member: Science Council of Japan  |
| 2008–2009  | President: Division II (Inorganic Chemistry Division), IUPAC  |
| 2007–2009  | President: Organometallic Division, The Kinki Chemical Society, Japan   |
| since 2006 | Committee Member: Asian Chemical Editorial Society  |
| 2006–2011  | Head Investigator: Grant-in-Aid on Creative Scientific Research:<br>“Organometallic and Cluster Chemistry in Metalloenzymes with Reducing Activities” |
| 2006–2008  | Vice Chair: International Organizing Committee (Pacifichem 2010)  |
| 2001–2008  | Member: National Committee for Chemistry, Science Council of Japan  |
| since 2005 | Coordinator: “Japanese-German Graduate Externship between Nagoya University and Münster University”   |

|           |  |
|-----------|--|
| 2005–2011 | Member of Subdivision on Science: Council for Science and Technology, Ministry of Education, Japan               |
| 2004–2007 | Titular Member, Vice President: Division II (Inorganic Chemistry), IUPAC   |
| 2002–2006 | Head Investigator: Grant-in-Aid on Priority Area “Reaction Control of Dynamic Complexes”                         |
| 2002–2003 | National Representative: Division II (Inorganic Chemistry), IUPAC  |
| 2001–2005 | Chair: Scientific Program Subcommittee, Member: International Organizing Committee (Pacifichem 2005)             |
| 1996–2000 | International Organizing Committee: International Chemical Congress of Pacific Basin Societies (Pacifichem 2000) |

## Awards and Honors

|      |   |
|------|---|
| 2011 | Honorary Doctorate, University of Münster, Germany                      |
| 2006 | The Chemical Society of Japan Award                                     |
| 2004 | Honorary Professor Lanzhou University (China)                           |
| 2004 | Honorary Professor Nanjing University of Science and Technology (China) |
| 2004 | Humboldt Award, Alexander von Humboldt Foundation, Germany              |
| 1998 | Inoue Prize for Science, Inoue Foundation, Japan                        |
