Supplement for Major Instrumentation in Research Buildings
for Proposals as per Art. 91b of Germany’s Basic Law (GG)

1. Name and description of the research building

The following information is required:
- name of the research building
- key number
- date the research building was approved (month/year)
- total amount for the approved major instrumentation
- information about the year and the funding period
- a short description of the objectives of the research building (max. 24 lines).

2. Major instrumentation in the research building proposal

Please list all the instrumentation in accordance with item 7 in the full proposal submitted to the Wissenschaftsrat (German Council of Science and Humanities) including the costs.

<table>
<thead>
<tr>
<th>No. ¹</th>
<th>Instrumentation name</th>
<th>Cost in thousands of euros</th>
</tr>

</tr>
</tbody>
</table>

Total

Please indicate, if applicable, when you will be submitting a proposal for the additional major research instrumentation for the research building in question.

¹ Continue the list as necessary.
4. **Details deviating from the full proposal**

Deviations from the instrumentation concept submitted to and approved by the German Council of Science and the Humanities must be justified in detail if they affect the type, scope or cost of the instrumentation functions.

Changes to the instrumentation type require agreement from the German Council of Science and Humanities; in these cases, appropriate supporting information must be supplied with the proposal.

Signature of the person responsible for the information provided in this supplement (Name, date, work address, telephone no., e-mail)
