

DFG Personnel Rates for 2023

Since the introduction of flexible funding in all funding programmes, the DFG approves funding for staff in the form of standard amounts. These amounts are calculated by the DFG Head Office using the relevant pay scale criteria, based on full-time employment, and are based on gross employer costs. They include the employer contributions for social security (including supplementary provision) and capital accumulation benefits as well as the annual special payment (Christmas bonus).

The rates are neither intended nor suitable for calculating personal remuneration.

The relevant remuneration or pay group on which the DFG bases its funding calculation does not replace the evaluation of the appropriate pay scale by the employer, which is subject to the relevant DFG usage guidelines.

Personnel Cost Category	EUR/ year	EUR/ month	Pay Scale Orientation	Comment
Professorship	114,300	9,525	W Salary	
Head of independent junior re- search group Heisenberg grant	94,500	7,875	E 14 Level 5 to E 15 Level 4
