

Review Board 206 "Neurosciences"

2020-2024 Membership Period

Internal Section 2 of Review Board 206

This section evaluates proposals from all subjects covered by the review board.

Due to the size of the review board and the large number of proposals, Review Board 206 cannot evaluate all proposals in its plenary session. The majority of individual proposals are therefore assessed at meetings of Sections 1 and 2. These are interdisciplinary sections, i.e. the sections are staffed in such a way that expertise from all review board subjects is represented in each section. Members of the other section may also be called upon to evaluate a proposal if required by the subject-specific orientation of the proposal.

- Section spokesperson: Prof. Dr. Ulrike Bingel, Essen
- Deputy spokesperson: Prof. Dr. Christine R. Rose, Düsseldorf
