

Review Board 206 "Neurosciences"

2020-2024 Membership Period

Internal Section for the evaluation of proposals to the Emmy Noether and Heisenberg Programmes

This internal section evaluates proposals to the Emmy Noether and Heisenberg Programme s from all subjects covered by the review board. Due to the size of the review board and the large number of proposals, Review Board 206 cannot evaluate all proposals in its plenary session. Proposals to the Emmy Noether and Heisenberg Programmes are evaluated at meetings of a separate section of the review board. This is an interdisciplinary section, i.e. the sections are staffed in such a way that expertise from all review board subjects is represented in each section. Other members of the review board may also be called upon if required by the subject-specific orientation of the proposal.

- Section spokesperson: Prof. Dr. Otto Wilhelm Witte, Jena

Subject no.	Subject	Name	First name	Location
206-01	Developmental Neurobiology	Wegner	Michael	Erlangen
206-02	Molecular Biology and Physiology of Neurons and Glial Cells	Böckers	Tobias	Ulm
206-02	Molecular Biology and Physiology of Neurons and Glial Cells	Rose	Christine R.	Düsseldorf
206-03	Experimental and Theoretical Network Neuroscience	Alzheimer	Christian	Erlangen
206-03	Experimental and Theoretical Network Neuroscience	Engel	Andreas K.	Hamburg
