11 PhD positions (TV-L E13, 4 years) for the Graduate School WERA "Phosphorus Recovery from Wastewater"

The DFG Graduate School WERA „Wertstoff Abwasser“ (Valuable Wastewater) at the University of Kaiserslautern-Landau (RPTU) is looking for 11 motivated PhD students.

In WERA, 11 cooperative research projects on the recovery of the important raw material phosphorus (P) from wastewater are being worked on together using novel natural scientific and engineering approaches through to technical implementation. PhD study in WERA takes 4 years in a close cooperation between PhD students and interdisciplinary professors team.

- Application deadline: 15.03.2024
- Starting on: 01.07.2024

The available PhD topics are explained in more detail under:
